

# CRONUS-WEB-CXC- Mantenimientos-Clientes-Zonas

Para crear zonas en el sistema, debemos ingresar a Mantenimientos => Clientes =>Ubicación => Zonas:

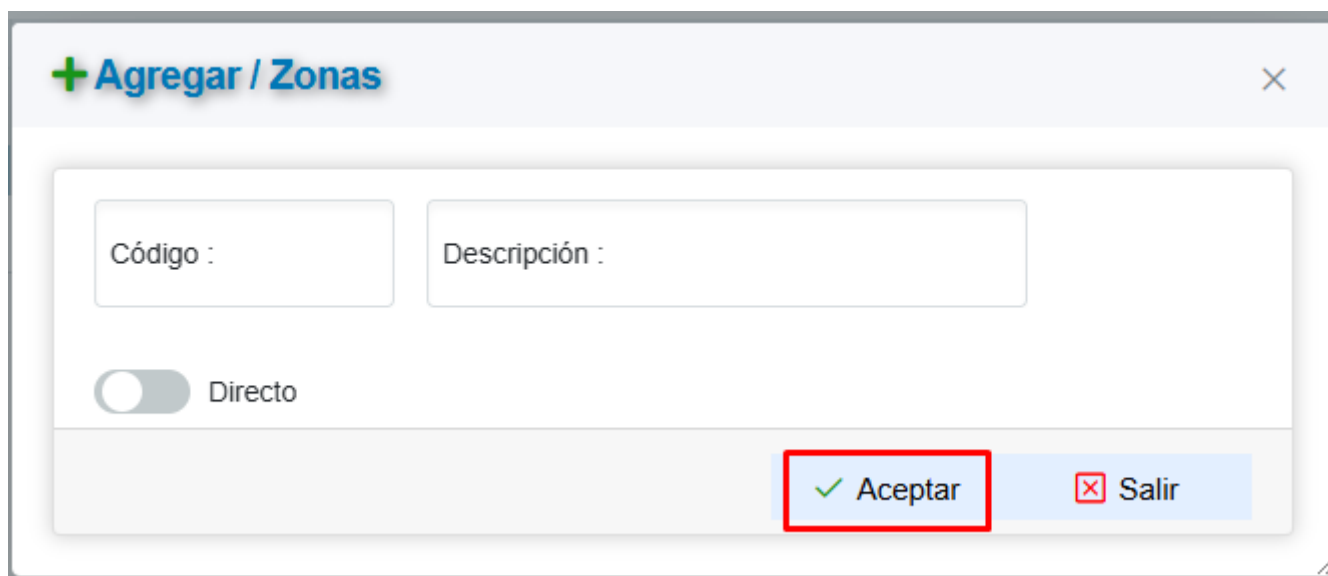

Y una vez acá el sistema presionamos " AGREGAR" para incluir una zona código (no se puede repetir ) y descripción :

The screenshot shows a web application interface with a table titled "Zonas". The table has columns for "Código", "Descripción", and "Defecto". A red box highlights the "+Agregar" button in the top toolbar. A red arrow points from this button to a modal form titled "+ Agregar / Zonas". The modal form contains two input fields: "Código :" and "Descripción :". Below these fields is a toggle switch labeled "Directo". At the bottom of the modal, there are two buttons: "Aceptar" (with a green checkmark icon) and "Salir" (with a red X icon).

Se presiona "Aceptar" y queda incluida la zona y descripción.

This is a close-up screenshot of the modal form titled "+ Agregar / Zonas". The "Aceptar" button, which has a green checkmark icon, is highlighted with a red box. The "Salir" button, which has a red X icon, is also visible next to it. The input fields and the "Directo" toggle are also visible in the background.

Se presiona "Aceptar" y queda incluida la zona y nos sale en la pantalla las diferentes zonas.
